

# SMSA Sailing Instructions

## Amendment#1

### Maximum RC Crew

Revision to SMSA SI's: Page 40, 3 Days in Advance, Bullet 1 to read:

- Confirm all RC personnel (minimum 4, **Maximum 10**) – make sure to include someone trained to drive

### New Location for RC Boat Docking

Revision to SMSA SI's: Page 41 RC Boat, Bullet 1 to read:

- Located on “**B**” Dock, Zahniser's Marina, Solomons. Keys to engine are in cabin on a hook next to the hatch. Please leave them there.

### Use of Inflatables for Mark “X” - Start Pin

Revision to SMSA SI's: Page 41 Flag and Signals, Bullets 1&2 to read:

- Inflate the Large Yellow race marks with the electric inflation pump provided. There should be a second inflator if the first is non-operational.
- A Back-up round orange fender (Hippity-Hop) may be used as a back-up in the event that the inflatable is damaged.

### Sail Participant Check-In Information

Revision to SMSA SI's: Page 43 Boat Check-in, Bullet 1 to read:

- Record the BOAT NAME, SAIL #, PHRF #, CLASS (A,B,C or NS), **# OF CREW ONBOARD**

We are asking that at check-in, all boats add the number of crew they have sailing with them that evening to the check-in information they provide to RC. This additional information is to assist with rescue operations if they become a necessity.

See you on the water,  
Erick Burger  
SMSA Keelboat Chairman
